**Date : September 2017**

## **National Curriculum 2017-18**

A high-quality physical education curriculum inspires all pupils to succeed and excel in competitive sport and other physically demanding activities. It should provide opportunities for pupils to become physically confident, in a way, which supports their health and fitness. Opportunities to compete in sport and other activities build character and help to embed a 'values led' education.

### *Aims*

The national curriculum for physical education aims to ensure that all pupils:

- develop competence to excel in a broad range of physical activities
- are physically active for sustained periods of time
- engage in competitive sports and activities
- lead healthy, active lives.

## **Vision and Aim**

As a staff at Haversham School we want the children to see that PE and sport are at the heart of school life and that they can achieve anything if they take the opportunities offered to them.

We echo the aims and purpose as stated in the new National Curriculum. We believe physical education and sport is an essential part of every child's development. We endeavour to provide high quality physical education and sporting opportunities for every child, equipping them to lead healthy, active lifestyles as well as providing the children with the necessary skills of good sportsmanship, to strive for excellence and be resilient in defeat.

We aim to offer a balanced program and a variety of activities to provide all pupils with the opportunity to develop a broad spectrum of skills, the knowledge necessary to use those skills throughout their lives whilst enabling them to develop acceptable fitness levels. We want to raise the aspirations of every student regardless of ability, providing them with the determination and enthusiasm to pursue a healthy and active lifestyle in future years.
